

Week 12 · Final demonstration and explanation

OPEN / WEEK 12

The fresh policy question

A student appeals on day 12. P4 says appeals must be filed within ten days. The team must answer, cite, test and explain a fresh failure.

First vote: what would you do?

QUESTION / WEEK 12

A student appeals on day 12. P4 says appeals must be filed within ten days. The team must answer, cite, test and explain a fresh failure.

Choose an initial answer and name one piece of evidence you need.

VOTE FIRST • GIVE A REASON

A Accept the first plausible result

B Check the source or measurement

Which source or test could settle this?

The journey through today's case

OPEN / WEEK 12

We will predict, connect an analogy, trace a mechanism, work an example, then explain a decision.

QUESTION / WEEK 12

Which three checks precede a confident reply?

Make a choice before we explain the diagram.

VOTE FIRST · GIVE A REASON

A Allowed source, relevant passage and supported claim.

B An answer is valid because it includes [P4].

Which source or test could settle this?

Integrated system • a familiar picture

ANALOGY / WEEK 12

A museum guide checks which rooms a visitor may enter before quoting a label.

What matches our case, and where does the analogy stop?

A museum guide checks which rooms a visitor may enter before quoting a label.

What matches the technical process?

Integrated system · map the parts

MAPPING / WEEK 12

Match each everyday part to the technical part.

Analogy limit: A citation needs to support the exact statement and the version in force.

FAMILIAR SCENE

Visitor role

Exhibit label

Guided answer

TECHNICAL IDEA

access check

retrieved P4

cited response

The analogy has a limit. Read it on the left.

Integrated system · how it works

MECHANISM / WEEK 12

The student question enters retrieval, access checks, answer construction and evaluation.

Trace the arrows from left to right.

FOLLOW THE DATA THROUGH EACH ARROW

Integrated system · work one case

WORKED / WEEK 12

For day 12 under the supplied ten-day P4, answer no and cite P4 with the used version.

Point to the evidence before giving your conclusion.

GIVEN

For day 12 under the supplied ten-day P4, answer no and cite P4 with the used version.

QUESTION

Which three checks precede a confident reply?

SUPPORTED ANSWER

Allowed source, relevant passage and supported claim.

Integrated system · answer and explain

REVEAL / WEEK 12

Allowed source, relevant passage and supported claim.

Tempting mistake: An answer is valid because it includes [P4].

TEST THE CLAIM AGAINST THE EVIDENCE

TEMPTING CLAIM

An answer is valid because it includes [P4].

SUPPORTED EXPLANATION

Allowed source, relevant passage and supported claim.

A citation needs to support the exact statement and the version in force.

2. Predict · Attribution

QUESTION / WEEK 12

What proves the work is yours and reproducible?

Make a choice before we explain the diagram.

VOTE FIRST · GIVE A REASON

A The changed code, settings, inputs and explanation.

B A polished demonstration alone proves understanding.

Which source or test could settle this?

Attribution · a familiar picture

ANALOGY / WEEK 12

A science notebook shows a changed setting, observation and explanation.

What matches our case, and where does the analogy stop?

A science notebook shows a changed setting, observation and explanation.

What matches the technical process?

Attribution · map the parts

MAPPING / WEEK 12

Match each everyday part to the technical part.

Analogy limit: A before/after result in one toy case cannot establish general reliability.

Attribution · how it works

MECHANISM / WEEK 12

Each learner shows the part they changed and explains the choice.

Trace the arrows from left to right.

FOLLOW THE DATA THROUGH EACH ARROW

Attribution · work one case

WORKED / WEEK 12

Show baseline, chosen setting, case counts and one error that still remains.

Point to the evidence before giving your conclusion.

GIVEN

Show baseline, chosen setting, case counts and one error that still remains.

QUESTION

What proves the work is yours and reproducible?

SUPPORTED ANSWER

The changed code, settings, inputs and explanation.

Attribution · answer and explain

REVEAL / WEEK 12

The changed code, settings, inputs and explanation.

Tempting mistake: A polished demonstration alone proves understanding.

TEST THE CLAIM AGAINST THE EVIDENCE

TEMPTING CLAIM

A polished demonstration alone proves understanding.

SUPPORTED EXPLANATION

The changed code, settings, inputs and explanation.

A before/after result in one toy case cannot establish general reliability.

3. Predict · Fresh challenge

QUESTION / WEEK 12

Which layer deserves the first test here?

Make a choice before we explain the diagram.

VOTE FIRST · GIVE A REASON

A Answer support using the retrieved P4 passage.

B Every wrong answer is a retrieval failure.

Which source or test could settle this?

Fresh challenge · a familiar picture

ANALOGY / WEEK 12

A mechanic diagnoses a new symptom by testing the failing part.

What matches our case, and where does the analogy stop?

A mechanic diagnoses a new symptom by testing the failing part.

What matches the technical process?

Fresh challenge · map the parts

MAPPING / WEEK 12

Match each everyday part to the technical part.

Analogy limit: Some failures cross layers; record uncertainty and test competing causes.

Fresh challenge · how it works

MECHANISM / WEEK 12

A new example of a practised failure tests understanding rather than memorization.

Trace the arrows from left to right.

FOLLOW THE DATA THROUGH EACH ARROW

Fresh challenge · work one case

WORKED / WEEK 12

If P4 is retrieved but the answer says 12 days is allowed, test claim support before changing search.

Point to the evidence before giving your conclusion.

GIVEN

If P4 is retrieved but the answer says 12 days is allowed, test claim support before changing search.

QUESTION

Which layer deserves the first test here?

SUPPORTED ANSWER

Answer support using the retrieved P4 passage.

Fresh challenge · answer and explain

REVEAL / WEEK 12

Answer support using the retrieved P4 passage.

Tempting mistake: Every wrong answer is a retrieval failure.

TEST THE CLAIM AGAINST THE EVIDENCE

TEMPTING CLAIM

Every wrong answer is a retrieval failure.

SUPPORTED EXPLANATION

Answer support using the retrieved P4 passage.

Some failures cross layers; record uncertainty and test competing causes.

4. Predict · Handover

QUESTION / WEEK 12

What can the next maintainer reproduce?

Make a choice before we explain the diagram.

VOTE FIRST · GIVE A REASON

A The setup, evaluation and known-failure checks from the handover.

B The notebook is self-explanatory without instructions.

Which source or test could settle this?

Handover · a familiar picture

ANALOGY / WEEK 12

A relief teacher can run a lesson from a clear folder and known limits.

What matches our case, and where does the analogy stop?

A relief teacher can run a lesson from a clear folder and known limits.

What matches the technical process?

Handover · map the parts

MAPPING / WEEK 12

Match each everyday part to the technical part.

Analogy limit: Documentation can go stale; date versions and rerun the checks.

Handover · how it works

MECHANISM / WEEK 12

Another person can run, test and review the solution from written instructions.

Trace the arrows from left to right.

FOLLOW THE DATA THROUGH EACH ARROW

Handover · work one case

WORKED / WEEK 12

Give installation steps, source versions, test commands, role rules and rollback instructions.

Point to the evidence before giving your conclusion.

GIVEN

Give installation steps, source versions, test commands, role rules and rollback instructions.

QUESTION

What can the next maintainer reproduce?

SUPPORTED ANSWER

The setup, evaluation and known-failure checks from the handover.

Handover · answer and explain

REVEAL / WEEK 12

The setup, evaluation and known-failure checks from the handover.

Tempting mistake: The notebook is self-explanatory without instructions.

TEST THE CLAIM AGAINST THE EVIDENCE

TEMPTING CLAIM

The notebook is self-explanatory without instructions.

SUPPORTED EXPLANATION

The setup, evaluation and known-failure checks from the handover.

Documentation can go stale; date versions and rerun the checks.

Evidence trail: input → result

WORKED / WEEK 12

Q: May I appeal on day 12?

A: No; the ten-day window has passed [P4], subject to the policy version used.

GIVEN

P4: appeals must be filed within ten days.

QUESTION

Q: May I appeal on day 12?

SUPPORTED ANSWER

A: No; the ten-day window has passed [P4], subject to the policy version used.

Notebook: run the prepared example

PRACTICE / WEEK 12

Present a self-contained end-to-end policy assistant.

Read the original output before editing.

1

Run an answerable student policy question

2

Run a no-answer question

3

Demonstrate blocked staff-only access

4

Explain one failure and propose a new test

Find the input and check in Python

PRACTICE / WEEK 12

Locate the supplied input, the transformation, the checking line and the printed result.

FOLLOW THE DATA THROUGH EACH ARROW

Predict one controlled change

PRACTICE / WEEK 12

Use a new policy version and explain which index and tests must change.

What should change in the result? What stays fixed?

Before: original case

After: one change

Keep all other inputs fixed.

Run, compare and record

PRACTICE / WEEK 12

Record the input, the one changed setting, the observed result and a reason for any difference.

Input	Setting	Result
Original	baseline	record
Changed	one edit	compare

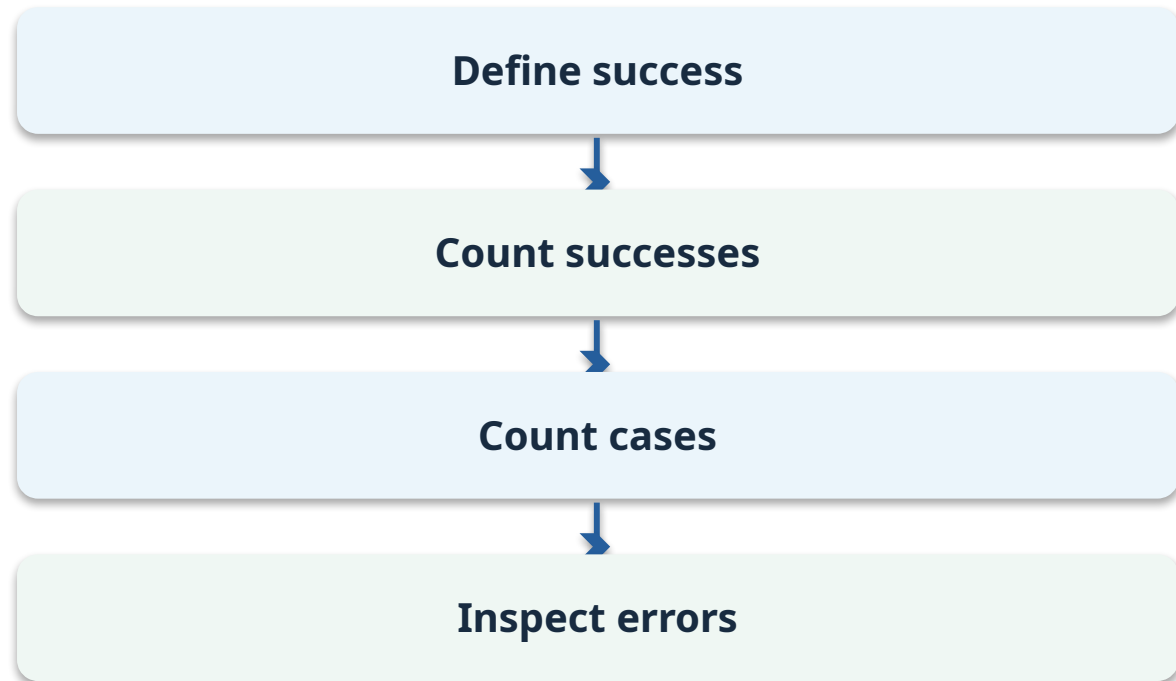

Measure without hiding the denominator

CHECK / WEEK 12

Task success, citation support,
no-answer accuracy and access
gate

Write the numerator,
denominator and one failure
case.

FOLLOW THE DATA THROUGH EACH ARROW

Error detective: find the layer

CHECK / WEEK 12

Plausible wrong claim: A polished demonstration without tests establishes that the system is ready.

Correct it using the case evidence.

TEST THE CLAIM AGAINST THE EVIDENCE

TEMPTING CLAIM

A polished demonstration without tests establishes that the system is ready.

SUPPORTED EXPLANATION

Show the test cases, negative cases, access result and remaining limitations.

Name a test that would catch this failure.

Transfer to a new situation

CHECK / WEEK 12

A new policy edition changes the appeal window. What records, index and tests need updating?

Explain which source or test would settle it.

VOTE FIRST • GIVE A REASON

A Use the visible evidence

B Flag missing or unsafe evidence

Which source or test could settle this?

Explain it to a partner

CHECK / WEEK 12

Without reading the slide, name the input, one processing step and the check. Your partner should ask “How do you know?”

FOLLOW THE DATA THROUGH EACH ARROW

Exam rehearsal · explain and apply

CHECK / WEEK 12

What makes a fair baseline comparison?

Write a short answer, then compare with the guide.

1

State the core idea

2

Use a case detail or calculation

3

Add a limitation

4

Compare with the Word guide

Exam rehearsal · explain and apply

CHECK / WEEK 12

Name the four demonstration cases.

Write a short answer, then compare with the guide.

1

State the core idea

2

Use a case detail or calculation

3

Add a limitation

4

Compare with the Word guide

What to hand in

PRACTICE / WEEK 12

Demo, test table, known limits and individual explanation.

Include the one changed input and an error explanation.

Three ideas to recall next week

CHECK / WEEK 12

Show the question-to-evidence path, your measured change and a repeatable handover.

Read the linked official sources in the Word guide and redraw one diagram from memory.
